

KONSTANTIN CHAYKIN

RUSSIAN EXCLUSIVE WATCHCRAFT

## Joker-Soccer

Football today is more than just a game, and mechanical watches are more than just indicators of time. The Russian inventor and watchmaker Konstantin Chaykin united these two worlds with the sarcastic but quite cheerful smile of the Joker and created a collection of watches inspired by the upcoming football World Cup, which will be held in Russia this summer. Joker Soccer is a real fan. In his round, moving eyes-indicators, a soccer ball is reflected; it also replaces the moon in the moon phase indicator.

A strong player in football is called the Joker. This is usually an attacker, who is sitting on the bench for a time and takes the field in the last 20-30 minutes of the game. He is full of energy, experienced and sees the game with a fresh look. The joker can change the course of the game, emerging like his card double from the sleeve of the coach. Konstantin Chaykin believes, that it makes sense to obtain your own watch forward!

The Joker's football eyes rotate thanks to a patented indication module. The watch case is made of bronze. The rim of the case is decorated with the letters of the name of a new member of the Joker's family – Soccer. The dial of the watch is covered with colored varnish and decorated in the guilloche technique. The alligator strap has white stitching which resembles a football net.

The traditional quality of the manufactory is reflected in the high level of finishing the module's details. The platinum is polished and covered with rhodium, the bevels of platinum, the wheel bridge, the levers and the lunar disk are polished, the surfaces of the parts and the bridge wheel of the disk indicators are finished with longitudinal grinding. The circular grinding is made on the disk of the moon phase indicator and the wheels.

For the time of the World Cup people who are usually not interested in football become football fans. With the Joker Soccer on your wrist, rooting for your favorite team will be much more interesting, and the memory of this important page in the history of world sports will remain with you for life. The Joker Soccer will be released in 11 copies only, according to the number of players in the team. Together with the Joker, Halloween and the Clown, the Joker Soccer will be included in the collection of Konstantin Chaykin's Wristmons.

### Specifications

<b>Limited edition</b>	<b>11 pieces</b>
<b>Caliber</b>	K07-0, automatic winding
Base movement	Swiss made ETA 2824-2
Complication module	completely produced by Konstantin Chaykin manufacture
Movement dimensions	diameter 31.5 millimetres; height 7.6 millimetres (incl. module)
Escapement	lever escapement
Balance frequency	28,800 semi-oscillations per hour
Power reserve	38 hours when fully wound
Jewels	33 (25 jewels for base movement, 8 jewels for module)
Module parts	61
Functions	regulator dial for hours and minutes, moon-phase display
<b>Case</b>	bronze
Case dimensions	diameter 42 millimetres; height 13.7 millimetres
Glass	sapphire crystal with antireflective coating, diameter 34.5 millimetres
Case parts	36
Dial finish	silver and ruthenium plating, two types of guilloche
Dial parts	9
Strap	burgundy alligator leather, calfskin lining, white stitching
Buckle	Konstantin Chaykin prong buckle in stainless steel

15/2 Rechnikov str. Moscow 115407 Russia
